

## FOR IMMEDIATE RELEASE:

### **Webinar: Common Sense Project Management**

*San Antonio, TX - July 21, 2009* - Jane Gennarelli of Magellan's Law Corporation will present a webinar on the subject of "Common Sense Project Management" on July 24, 2009.

In this webinar, Jane will discuss the typical reasons that litigation projects get "broken" -- why they go over budget, miss deadlines, and fail to deliver the quality results that litigators expect -- and she'll outline some common sense techniques to prevent those problems.

Among the topics she'll discuss are budgets, procedures, oversight, documentation, and quality control.

This webinar is drawn from a white paper published by Magellan's Law Corporation under the same title. A modified version of that white paper was serialized in *Litigation Support Today* magazine. A copy of [the white paper is available](#) on the Magellan's Law web site.

The webinar is presented by Encore Discovery Solutions and registration is available on the Encore web site.
